# Kids’ ski size chart

Stand the ski on its tail: it should reach between the child’s chest and nose.
Nearer the chest for beginners, nearer the nose for heavier or confident kids.

| Age | Height | Weight | cm · kg | Ski length |
|---|---|---|---|---|
| **4** | 3′4″ | 35 lb | 102 · 16 | 80–90 cm |
| **6** | 3′9″ | 46 lb | 114 · 21 | 95–105 cm |
| **8** | 4′2″ | 57 lb | 127 · 26 | 110–120 cm |
| **10** | 4′7″ | 71 lb | 140 · 32 | 120–130 cm |
| **12** | 4′11″ | 90 lb | 149 · 41 | 135–145 cm |
| **14** | 5′5″ | 112 lb | 164 · 51 | 150–160 cm |

**Go by size, not age**

Height and weight matter more than age.

**Don’t buy long to grow into**

Long skis are harder to turn and less fun (evo).
